JESP 1.2 Ballot has been initiated by email from Wayne on Monday, Jul 8, 4:30 PM

Assuming the JESP 1.2 is approved, the Release Review time will be shortened from 30 to 14 days

Vote has reached a super majority, ballot to continue for the full 7 days before declared final.

Resolve comments & update to the [JESP Operations](#) document

Objective: Publish a milestone version on Wednesday (10th)

Scott published as a view only google doc in the public area of the Spec Committee team drive.

Specification Committee repository for Processes (Spec and TCK), JESP Operations document, Final Specifications

Standalone Specifications: Script to create the boilerplate spec documents

Remains a work in progress w/ David.

Creation/update Spec Documents - Issues blocking progress and Specification projects that are not engaged

Full and Web Profile

CDI

Batch

JBV

Standalone Specs - Boiler plate specification documents

Action: How do spec projects get set up with Jenkins. Wayne to follow-up with WebDev team.

Discussion: PR against spec projects are not being approved. Can we shift to PR by committers are automatically approved? Up to the projects.

Deliver TCKs and Setup TCK jobs

Discussion: Requirement for TCKs of stand alone specifications to be run by spec projects before proceeding to the release review.

Reminder: Jakarta EE Community Update call - July 17th
