## Jakarta EE Working Group Meeting on May 10

- We held the Jakarta EE Working Group meeting on May 10
- The high level agenda was as follows. Thank you presenters:
  - Welcome (Will Lyons)
  - Jakarta EE 10 status (Scott Stark)
  - Jakarta EE 10 messaging and announcement overview (Neil Patterson)
  - Q1 status report (Tanja Obradovic)
  - Member survey results (Tanja Obradovic)
  - Discussion
    - Help from members
    - Help for members
- All materials used for the meeting, including the detailed agenda, the presentations used, a recording of the meeting, a list of attendees and zoom chat have been published to a shared drive:
  - [https://drive.google.com/drive/folders/1q2WwwwuFw0NSC5-BeD\\_J1CuZ\\_ePIHAYT5](https://drive.google.com/drive/folders/1q2WwwwuFw0NSC5-BeD_J1CuZ_ePIHAYT5)

- Highlights:
  - Scott socialized the expected Jakarta EE 10 schedule update (Complete on June 23, 2022)
  - Neil socialized the marketing messages, plan, and likely schedule update (end of June, perhaps June 28). Comments included:
    - Highlight release as part of [JakartaOne Livestream German](#) on June 30
    - Question on compatibility logos for Core Profile
    - Add “side-by-side pre- Jakarta EE 10 vs. Jakarta EE 10” summary to collateral list
  - Tanja reviewed the Q1 results and member survey results
    - General discussion about possible F2F meeting and survey
  - Open discussion
    - Question/discussion about Jakarta EE 10 positioning and Spring
- Paul Buck suggested that we publish the video on Youtube

### **Jakarta EE 10 release status**

- See Scott’s presentation from May 10:

  - “Done”: 28 (as of May 23, not incl Jakarta RPC - vs. 16 on April 26)
  - “Ballot in process”: 1 (as of May 23 - vs. 5 on April 26)
    - The one listed as “ballot in process” is Jakarta Security 3.0 - Paul thought this was supposed to go into ballot last week and will follow up
    - Even if one component spec remains in ballot, there is a process for enabling the Platform specs to enter into ballot
- Expect the Platform specifications to be in ballot by June 9
  - Jakarta EE Platform Specification 10
  - Jakarta EE Web Profile 10
  - Jakarta EE Core Profile 10
- Jakarta EE 10 released on June 23
- No actions required of Steering Committee or members at this time

## Core Profile and Compatibility Program

- Update from Paul Buck of the Eclipse Foundation
- Three updates:
  - License being updated to include Core Profile
  - Appendix that includes namespace information will refer to “jakarta” (instead of javax)
  - The license itself will now be AISBL (Association internationale sans but lucratif)
- Revised trademark and compatibility license agreement will be sent out to members for signature soon
- Paul will ask for a “due date” for member signed agreement to be provided
- There is one compatibility logo at this time
  - Discussion on whether we should have a compatibility logo per profile. Will be taken up in the Marketing Committee.

## Program Plan Q2 / Q3 objectives

- [2022 Jakarta EE Program Plan - by quarter](#)
- Confirm Q2 objectives
- Review Q3 objectives
  - Deliver Jakarta EE releases in 2022
    - Q3 objectives related to future direction of Jakarta EE
      - It was discussed and agreed that creating a strawman narrative for future direction would be useful
      - Would be useful for Steering Committee to provide a high-level message that Platform project team could augment
      - Steve Millidge volunteered to initiate this - will have a direction for this activity by end of June
    - Drive Jakarta EE Brand, Awareness and Adoption
      - Objectives in this area are being maintained, will be reviewed by Neil this week

- Align Jakarta EE and Microprofile
  - Jakarta Config example deleted
  - Need more input on Q3 objectives
- Enable Ecosystem Transition to jakarta namespace
  - Martijn volunteered to draft a blog post for Q2
  - We will continue to review this area at Steering Committee for Q3 objectives and for progress generally
    - [javax -> jakarta.x namespace ecosystem progress spreadsheet](#)
    - How can we encourage more rapid transition/support
      - For example, coordinated effort to reach out to some key vendors in this ecosystem?
- Grow and reward contributors and committers
  - Need meaningful Q3 objective
- Acquire new working group members
  - Suggestion is to focus on China - see discussion on Jakarta EE China community below

### **Enable Ecosystem Transition to jakarta namespace**

- Mentioned above in Program Plan Q2/Q3 objectives
- Will track this as a standing agenda item per prior meeting

### **Include Jakarta EE Roadmap in next meeting(s)**

- Mentioned above in Program Plan Q2/Q3 objectives
- Will track this as a standing agenda item per prior meeting

### **Jakarta EE China community**

- Jakarta EE Working Group update in Chinese
  - Would this be of interest to Chinese members?
    - Date TBD, should be scheduled in China-friendly time zone
  - If so, we can organize this call in Chinese Emily Jiang and YK, Yee-Kang Chang (both from IBM) would be able to help!
  - Emily agreed to poll the Chinese Working Group members to determine if there is interest
- JakartaOne Livestream China
  - Interest expressed to Marketing Committee mailing list
  - Issue opened <https://github.com/jakartaee/jakartaone.org/issues/376>
- Please use the following issue <https://github.com/eclipse-ee4j/jakartaee-tutorial/issues/275> to discuss what existing English work products/collateral would be most valuable to be translated to Chinese members and/or market so that we can respond more fully:

- Tutorials (more targeted to end users)
- Specs (more targeted to implementers)
- Jakarta EE Books

### **Jakarta EE Working Group F2F meeting**

- The member revealed interest in a F2F Jakarta EE meeting (92% of respondents). This item is a follow-up on this topic.
- Please complete Jakarta EE Members Survey for F2F meeting
  - [Link to Jakarta EE Members F2F meeting 2022 Google Form](#)
  - Please respond (5 responses as of last week)
